"JUBILEE BELLS RINGS AT AUXILIUM NAVAJEEVANA!"

As we look back into the 25 years of our flourishing journey, we cannot but thank God for the amazing works He has accomplished in the life of so many girl children who have gone through this centre!!!

According to Pope Francis, the idea of "youth" should not be analyzed in the abstract, but always considered as concrete "young people," each "with the reality of his or her own life."

Addressing adolescents and young adults, Pope Francis said: "I hope that you will be serious enough about yourself to make an effort to grow spiritually in creating your inner beauty." And so "Growing older means preserving and cherishing the most precious things about our youth, but it also involves having to purify those things that are not good and receiving new gifts from God so we can develop the things that really matter."

This is what unerringly happening in Auxilium Navajeevana Home for Girls. It is a non-governmental, non – profitable voluntary Organization which was established in the year 1995, for children in need of care and protection between the age group of 6 to 18. (Among them there are exceptional cases due to homelessness).

Navajeevana means new life – Giving new life by providing shelter and home to destitute and orphans, run away children, homeless children, children of drunkards and abandoned children and at risk of any other kind. Its main activity is to give formal and non formal education, professional and technical trainings, conducting summer camps, counseling, educational tours, home placement, job placement, marriage settlement and talent development.

At present we have four centres under Navajeevana Chamarajpet – Navajeevana Kammanahalli, Navajeevana Rayapuram and two at Chamarajpet – taking caring of 208 girls. They go to different colleges schools both English and Kannada mediums studying from standard 1 to X.

By now our first arrivals have attained outstanding achievements. To mention just few cases: few have passed MBA and other PG studies and are employed; another girl Amudha is completing her doctorate in physics. There are others who are pursuing higher studies either post graduate or under graduate courses and a good number of them are on the way to different professional courses. Good many are married and are with families living happily. Hundreds and hundreds of our children who found their own homes are rejoined with their dear ones or home placed.

As one go through these pages can find the success stories of our children and their activities.
